Cost of an Emergency Department Visit

Emergency Department charges are based on the level of emergency care provided to our patients at either our **Foothills Hospital Emergency Department in Boulder** or the **Emergency Department at our Community Medical Center in Lafayette**.

The levels, with level 1 representing basic emergency care, reflect the type of accommodations needed, the personnel resources, the intensity of care and the amount of time needed to provide treatment. The following charges do not include fees for drugs, appliances, supplies or additional ancillary procedures that may be required for a particular emergency treatment. They also do not include fees for Emergency Department physicians, who will bill separately for their services. These price estimates reflect the amount a patient might pay if they take advantage of our Boulder Community Health prompt-pay self-pay discount.
